

From Flower to Food

Name / chosen name: _____

Bees and other pollinators help many flowering plants produce seeds and fruits. Explore a question about flowers, pollen or food with a trusted source.

Draw, write, speak or use a fictional example. You may choose fewer prompts or pass.

1. A flowering plant I would research

2. An insect visitor I could observe safely

3. A question about pollen or seeds

4. A garden action an adult could plan
